## General information for your stay at the Bärghüsi

Dear guests,

Our holiday apartment was rebuilt entirely after it burned down in 2006. The following information should help in making you feel at home in our chalet.

### The chalet

On the ground floor there is a large living and dining room with integrated kitchen, a double bedroom, a bathroom with shower, covered area outside for two chairs, and a balcony.

On the first floor there is a bedroom with a double (140 cm) and a single bed, a single room, a bedroom with three beds, a dormitory accommodating five people, a bathroom with shower, and a balcony.

In the cellar there is a washing machine and a drying room.

### Key

About how to get the house key we inform you together with the delivery of the renting documents.

### Heating

The entire house is heated by a wood-burning oven centrally located in the living area. Wood is stored in front of the house. **When heating, the ventilation in the balcony door must be open both inside and outside.** If the fire is still not burning properly, pivot one of the hopper windows.

**Electric ovens** with thermostats are installed in the bathrooms as well as in the drying room in the cellar. They can be regulated according to your needs. The electric ovens must always be turned on at a minimum level in the winter. If the temperature is below freezing, the bathroom windows should only be opened for short periods—the mixer tap is very sensitive.

**Please be careful with naked flames and candles!**

## **Bed linen**

Please bring your own bed linen and sleeping bags. Each bed is equipped with a mattress cover, a fitted sheet and a pillow with case (60 × 100 cm) and a duvet without a case (160 × 200 cm). Please use your own bed linen and leave our bed linen on the bed when you leave. Upon request you may use the bed linen belonging to the chalet for an additional CHF 15.— per bed (for your entire stay). Please let us know in advance.

## **Inventory**

There is sugar and salt, otherwise there are no provisions in the kitchen. You can buy your groceries at the store in Achseten or in Adelboden. There are matches, candles and fire-proof glasses and coasters available. Please replace used candles and matches.

## **Cleaning utensils**

Cleaning utensils for the kitchen are in the closet to the right of the sink. Since the chalet has its own sewage system, we only use biologically degradable dishwashing detergent which is at your disposal. Furthermore, we will provide you with white, color-free toilet paper as well as garbage bags. There is a washing machine but no dish washer. You will find a vacuum cleaner, garbage bags and other cleaning utensils in the first closet in the kitchen corridor.

## **Garbage, compost, ashes**

Please bring your garbage bags—with a valid sticker on them!—to the collection site in Elsigbach. The stickers are available at the grocery store in Achseten.

Place your compost in the container at the farm house Marmet.

Place ashes in the designated metal container in the port in front of the house.

## **General rules**

**Please take care of and respect this wonderful place.**

Please do not enter the apartment without house shoes!

The entire house is a **no-smoking area**; pets are not allowed!

Among other items there are a few tools, two sleds as well as a grill at your disposal in the cellar.

## **Visitor's tax**

Please put the accounting and the money for the visitor's tax into the designated coffer situated on the desk in the living room.

## **Departure**

Please leave the chalet clean (vacuum cleaner) and tidy. If not agreed upon otherwise, we will take care of cleaning the oven and the final cleaning of the chalet.

1. Please do not leave any groceries or toilet articles behind!
2. Please let us know about any damages, broken dishes or glasses, etc., even if you are not at fault.
3. In winter please leave the electric ovens in the bathrooms and the cellar turned on the minimum supervisory level (arrow pointing down).
4. Turn off the refrigerator.
5. Close all of the windows and window shutters. The latter must be securely latched (storms!).
6. Turn off all hot plates and lights.
7. Close the doors and hang the house key into the key safe situated in the firewood storeroom in front of the house. Afterwards please don't forget to mix up the number combination of the safe.

If there should be any problems, please contact Mrs. Marmet or us directly.

**We wish you a wonderful and relaxing holiday at the Chalet Bärghüsi.**

February 2013
